# A MESSAGE FROM CEO

**MAQSOOD FAISAL PRINTING PRESS (SMC-PVT) LIMITED**

Maqsood Faisal Printing Press is a family oriented business entity with an impressive track record of intensive advance experience of Integrated Printing & Packaging for the last three decades. It is a success reality of Chairman Haji Maqsood Ahmad, my father, a man of principles. His Devotion, Dedication and Commitment towards industrious up growing has inspired us to join hands with him to gear up the gained success. Also, the efforts made by my brothers, now as directors of the company cannot be over ruled. They too collaborate equally with due diligence to turn this unit into a Printing & Packaging Complex. This never ending struggle has embraced an exhilaration in terms of Excellent rather than good. The core value of our business is to practice fair Business Principles, Ethics, Regulatory Compliance and Rituals. We do feel honor to be recognized as venture capitalist and it means to us.

# QUALITY POLICY

**MAQSOOD FAISAL PRINTING PRESS (SMC-PVT) LIMITED**

**WE HAVE JOINED THE INTERNATIONAL COMMUNITY BY QUALIFYING FOR INTERNATIONAL QUALITY STANDARD ISO 9001:2015**

- **The salient features of our Quality Policy is**
  - To be recognized as quality conscious company.
- Endeavoring to exceed the expectations of the customers by ascertaining continual improvement in the products.
- Inclusion of risk based thinking in the process to collaborate with the strategic decision.
- Caring for the vested interests of the interested parties.
- Embracing new technology with competent manpower.
- Streaming with relevant regulatory compliances of the land.
- Any inevitable change will be addressed in the revision of this policy.

# OFFSET PRINTING

Offset Printing is another domain, we are in deal. We use prime quality of raw materials, indulging state of the art technology and engagement of competent professionals to pocket the best quality of end product. Printing on metallized board is our specialty which differentiate from the other competitors at the competitive cost.

# GRAVURE PRINTING

Flexible packaging has attracted the whole world to harness the increasing consumption & convenience. The printed laminate and its conversion into packaging material has tremendously boost up the business. Poly Propylene, Polyethylene and Polyester are the petrochemical originated ingredients bearing different characteristics and properties, depends upon the application.

# SLEEVE MAKING

Sleeves are inherently shrinkable material in machine direction while subjected to applied temperature. Beverage and cosmetics industry is the major consumer of printed sleeves. We can produce the sleeves as per the requirement of the customers.

# ROLL TO ROLL LABEL PRINTING

MFP cannot over ruled the arising needs of roll to roll labels printing. In order to capacitate the requirments of the customer, we are fully equipped with latest version of technology with built in production capacity of 1.5 million labels per day of different printing colors by using self-adhesive paper of the finest quality including metallized label, pearl label and transparent label. Major consumers are Cosmetics, Pharmaceuticals, Food and beverages.

# CUSTOMISED TISSUE BOX

The increasing trends of tissue consumption has revolutionized the world to put in use the virgin wood fiber which is environment friendly. Our attention is to explore this business horizon deeply. Our predetermined apprehension is to provide the tissue at the lowest cost but of superior quality. We have launched the tissue with the brand name .

# TUBE MAKING

Tube making is another business horizon to deal with. Tube making is the laminate of different polymer films of different microns extruded with aluminum foil as a good barrier of aroma. Basic functionality is filling of the cosmetics, medicated ointments and jells. The objectivity of the tube is to abstain from any leakage during processing of the product and inert to aroma barrier. A production on massive scale is under the stringent quality assurance to predict its intended use.

# PLASTIC PACKAGING

Plastic has endorsed itself as an emerging factor in everyday life because of its durability, lightweight and equally good for food & non-food contact packaging. Advertently, an increasing consumption of plastic household goods has resulted AMPTECH to manufacture the Confectionary Jars, Lotion Bottles, Cream Jar, Facial jar 250 millimeter. Cream jar for 18 & 22 grams, Cap of Perfume Bottle, Cap of Lotion Bottle, Cap of Shampoo Bottle, PET bottle of capacity 500 millimeter, Veterinary Bottle, Ketchup Bottle, Mayonnaise Bottle, etc. We are in strong commitment for the provision of quality products suitable for their intended use, customer satisfaction and Environment conservation.
